**Re: Request for Modification and Extension of Special Temporary Authority
and Request for Waiver of the Replication/Maximization Interference
Protection Deadline
FCC File No. BEDSTA-20060120AEG
WSTR-DT, Cincinnati, Ohio (FIN: 11204)
MB Docket No. 03-15**

Dear Ms. Dortch:

WSTR Licensee, Inc., the permittee of WSTR-DT, Cincinnati, Ohio (the "Station"), hereby seeks modification and extension of the above-referenced authorization for Special Temporary Authority ("STA"), which was granted on February 16, 2006 and expires on July 1, 2006. The Station also intends to submit an application for modification of its Construction Permit ("CP"), File No. BPCDT-19991014ABC. Grant of the STA modification and extension request is necessary to permit the Station to continue to meet its DTV service commitment pending FCC action on the CP modification application. Because the Station's operations under the modified STA come close, but do not precisely meet the applicable replication/maximization requirements, the

Station requests a waiver of its replication/maximization interference protection deadline, as instructed by the FCC's recent Public Notice.¹

As explained in the attached engineering statement, because of tower limitations the Station has side-mounted its digital antenna. The Station's use of a substitute antenna also prevents the Station from matching the precise replication/maximization service area authorized in the CP. Nonetheless, with an increase in ERP, as proposed in the CP modification application to be filed, the Station can fully meet its replication/maximization requirement. For these reasons, the FCC should grant the waiver request.

Attached hereto are the following items:

Tech Box of Section III (DTV engineering) of FCC Form 301 providing the technical parameters requested,

Preparer's Certification (Section III) of the FCC Form 301,

An Anti-Drug Certification,

FCC Form 159, and

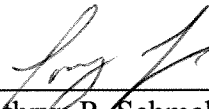

A check payable to the Federal Communications Commission in the amount of One Hundred and Fifty Dollars.

If there are any questions concerning this request, please communicate with the undersigned.

¹ See DA 06-1255, at 4 (June 14, 2006).

DTV STATION

Permittee: WSTR Licensee, Inc.

I am a Consulting Engineer, an employee in the firm of Carl T. Jones Corporation, with offices located in Springfield, Virginia. My education and experience are a matter of record with the Federal Communications Commission. I am a registered Professional Engineer in the Commonwealth of Virginia, Registration No. 7418, and in the State of New York, Registration No. 63418.

GENERAL

WSTR Licensee, Inc., permittee of DTV station WSTR-DT, channel 33, Cincinnati, Ohio, has authorized this office to prepare this statement, the FCC Form 301 "tech box" and associated exhibits in support of a request, in accordance with policies set forth in the Commission's *Memorandum Opinion and Order on Reconsideration (MO&O)*¹, for modification of its current Special Temporary Authorization, BEDSTA20060120AEG, to operate with facilities different from those currently authorized and slightly different from those authorized in its construction permit, BPCDT-19991014ABC. The DTV facilities proposed herein differ from its current STA facilities in only one respect. The permittee

¹ *Memorandum Opinion and Order on Reconsideration* in MM Docket No. 00-39, 16 FCC Rcd 20594 (2001), paragraphs 34-36.

herein requests modification of its temporary authorization to operate with an ERP of 500 kW instead of 17.1 kW as currently authorized. No other change is requested. In order to continue to meet its DTV service commitment, WSTR-DT's permittee seeks modification of its current temporary authorization as herein requested.

In accordance with Commission policies, as stated in Public Notice DA 06-1255 (*Notice*)², released on June 14, 2006, regarding DTV stations on their current DTV channel, but that are unable to precisely meet their applicable maximization requirements for reasons such as the unavoidable use of a side-mounted DTV antenna, the permittee intends to provide the documentation necessary to seek a waiver of the interference protection deadline. The permittee also intends to submit, prior to the use-it-or-lose-it deadline, an application for modification of its construction permit to specify an increase in ERP sufficient to compensate for the unavoidable reduction in HAAT.

PROPOSED TECHNICAL PARAMETERS

Digital station WSTR-DT is authorized to operate with an Effective Radiated Power of 500 kW at an antenna height above average terrain of 337 meters using an Andrew directional antenna, model ATW30H3-HTC1-33S. The permittee has installed a substitute Dielectric directional antenna, model TFU-24DSB-M (C) on its existing tower at a height above ground of 266 meters. The permittee's current STA authorizes WSTR-DT to operate with an ERP of 17.1 kW and at a HAAT of 319 meters. The permittee herein requests

modification of its current STA to authorize WSTR-DT to operate with 500 kW ERP. No other change is herein requested.

The pertinent technical parameters are shown in the attached FCC Form 301 "tech box". The currently authorized substitute antenna's azimuth and elevation patterns and tabulations are shown in the attached exhibits one through five.

SUMMARY

It is submitted that the request for modification of Special Temporary Authorization, as described herein, complies with the policies, rules and regulations of the Federal Communications Commission. This statement, the FCC Form 301 "tech box" and the associated exhibits were prepared by me or under my direct supervision and are believed to be true and correct to the best of my knowledge and belief.
